Storefront Sales

Getting set up:

https://www.trails-end.com/login
Step 1: Create a scout account with Trail's End
Step 2: Download app on your phone
Step 3: Log in as scout
Step 4: Pair Square reader (pair through Trail's End app). Make sure to allow Trail's End app to access location while using app, microphone is on, and background is set to refresh.

Taking Payments:

- Cash and credit card payments are recorded through the Trail's End app. No credit card processing fee to Pack when taking payment through the Trail's End app.
- Make sure you are recording sales as STOREFRONT SALES.
- Either scout can enter payments. All sales from each storefront location will be divided between the scouts that worked on that day, not just a particular shift.   *Scout's sales credit will be pro-rated if they show up late or leave early from a shift.
- Only those scouts signed up for a shift on the Trail's End app will receive credit. Siblings or scout friends will not receive credit for showing up and selling at a shift they were not scheduled for.
